Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

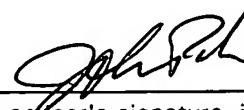

The Examiner set forth a telephonic restriction requirement: Group I, directed to a method for treatment and prophylaxis of conditions of aging comprising administering an enzyme that increases the presence of cell specific carbonic anhydrase enzymes in the brain; Group II, directed to a method for treatment and prophylaxis of conditions of aging comprising administering a non-enzyme compound. The Examiner further required an election of a single disclosed species, for example, if Group II were elected, zinc as the single disclosed species. Mr. Bergquist elected Group II, and indicated that he will file a preliminary amendment to amend claim 1 accordingly and cancel dependent claims that are directed to enzyme active agents. The Examiner will wait for such a preliminary amendment before starting examination.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

i) It is not necessary for applicant to provide a separate record of the substance of the interview (if box is checked).
